

Workshop on tools

Learning by doing, creative methodologies for social intervention

This workshop will give us tools to rethink social and community actions from an intersectional perspective. Community participation experiences that have incorporated different axes of inequality, such as class, origin, age and gender, will be shared, and intervention strategies that take into account the diversity of the groups will be considered. It will be a participatory workshop and individual and group dynamics will be carried out to dismantle the imaginaries.

Speakers: Desiré Rodrigo and Patricia Fuentes
